APPENDIX 2

AREA APPOINTMENT

1. Principles and Criteria

1.1 For the purposes of selecting an Area for Hosting of WAS Events, the following general principles and criteria will form the basis upon which the procedures referred to in Rule 6.1 of the Bidding Rules shall be developed:

- Commercial potential and obligations including broadcast commitments of World Athletics;
- Geographic location and time zones;
- Local known interest (e.g. whether a city has previously communicated a desire to host);
- Demonstrated popularity and spectator interest and potential for growing that interest;
- Ability to target local governments (cities, sports bureau, tourism offices via tourism conventions) with Member Federations;
- Athletics development credentials and potential;
- Optimal conditions for athlete performance and high quality competition;
- Athlete Welfare credentials and potential.

2. Process

2.1 Beginning in 2019, Council will approve a strategy for the hosting of World Championships ("WCH") and World Indoor Championships ("WIC") in selected continental areas ("Areas") during the period from 2022 to 2027 ("Initial Hosting Strategy").

2.1.1 The period from 2022 to 2027 (the “Initial Period”) will encompass 2 WCH (taking place in 2025 and 2027) and 3 WIC (taking place in 2022, 2024 and 2026), although due to timing considerations the Initial Hosting Strategy will not apply to the WIC taking place in 2022, and instead this will be chosen in accordance with the process referred to in Rule 5.2 below.

2.1.2 The Initial Period also will encompass 3 World Under-20 Championships ("WU20") (taking place during the same years as WIC) and 3 World Relays ("IWR") (taking place in 2023, 2025 and 2027).

2.1.3 Although the Initial Hosting Strategy is not expected to apply to the selection of Areas in which WU20 and IWR will be hosted during the first half of the Initial Period, Council may decide to include the selection of Areas for
WU20s and IWRs within the Initial Hosting Strategy, especially during the second half of the Initial Period.

2.2 Council will review the Initial Hosting Strategy at least annually in order to determine if it is being applied as intended and may adjust it as Council deems appropriate to maintain the intended outcome.

2.3 In 2022, Council will review how the Initial Hosting Strategy has been applied and will determine whether to proceed with a new hosting strategy (either along the same lines as the Initial Hosting Strategy, as it may be adjusted, or on a different basis) for a specified period beginning in 2028.

2.3.1 If Council determines to proceed with a new hosting strategy beginning in 2028 onwards, Council will approve the new hosting strategy not later than 2025.

2.3.2 If Council determines not to proceed with a new hosting strategy beginning in 2022, Council will consider, and decide, no later than 2025, how hosting of WCH and WIC will take place from 2028.

3. **Factors for Development of Initial Hosting Strategy**

3.1 The Initial Hosting Strategy will be developed and implemented by Council during the course of 2019 so as to ensure Council:

   a. approves the selection of Areas for 2024 and 2025 (“Cycle 1”) no later than its final meeting of 2019; and,

   b. subject to the outcomes of the consultation and market-testing phase described in Rule 3.3.2, approves the selection of Areas for 2026 and 2027 (“Cycle 2”) no later than mid-2020.

3.2 At its meeting in March 2019, Council reviewed, considered and discussed the basis for determining an Initial Hosting Strategy based on the relevant elements of World Athletics' financial and operational strategy and taking into account the following:

   3.2.1 Consideration of World Athletics' purposes, including to promote, develop, and be the governing body for the sport of Athletics worldwide;

   3.2.2 Consideration of the need to balance appropriate geographic distribution of international competitions whilst at the same time advancing World Athletics' commercial objectives and status as a top tier international sport; and,

   3.2.3 Consideration of the criteria set out in M Circular 17/18 and the driving rationale for Area selection, being to ensure that events take place in the best place, at the best time and in the best way so as to further the sport of Athletics and the goals and objectives of World Athletics.

3.3 The aims of Council’s review, consideration and discussion at the March 2019 meeting was:

   3.3.1 to agree on general principles for the development of the Initial Hosting Strategy; and,
3.3.2 to identify and request a process of consultation and market-testing aimed at fulfilling these general principles, to be led by the Director of Competitions and Events, working with other relevant World Athletics functions, the Competition Commission, the Athletes’ Commission and World Athletics-Dentsu Steering Board/sub-groups (together being the “Stakeholders”), in order to present specific recommendations in principle for review, consideration and discussion by Council at its June 2019 meeting (or, if additional time is considered necessary, at its September 2019 meeting). The work to be led by the Director of Competitions and Events is expected to include the following:

3.3.2.1 Establishment of a web-based information programme in which all Areas and MFs will be invited to participate, hosted on the World Athletics website, setting out the key factors and relevant information and timelines for hosting of WCH and WIC;

3.3.2.2 Follow-up sessions with those Areas and MFs evidencing concrete interest and potential hosting opportunities, on a one-on-one and/or workshop basis; and,

3.3.2.3 Discussion of the results of the above work with the Stakeholders.

3.4 At its June 2019 meeting, Council will be presented with recommendations from the Competitions and Events team, based on the process outlined in 3.3.2 including consultation with Stakeholders, for the purpose of finalising the Initial Hosting Strategy by appointment of Areas for the Initial Period.

3.4.1 The recommendations will identify a potential Host city within each recommended Area.

3.4.2 The identification of the potential Host city will be based on an initial assessment of viability by the Competitions and Events team, in consultation with the Stakeholders, using a basic checklist of delivery obligations.

3.5 Should Council not be able to finalise the Initial Hosting Strategy by appointing Areas for Cycle 1 during its June 2019 meeting, further consideration by Council, based on such additional work led by the Competitions and Events team as Council may direct, will take place at the September 2019 Council meeting and, if necessary at the November 2019 Council meeting.

3.6 Council will seek to finalise the Initial Hosting Strategy by appointing Areas for Cycle 2 during its meetings in 2019, but if not able to do so will continue to consider this during its meetings in 2020, in order to appoint Areas for Cycle 2 no later than mid-2020.

4. Identification of Areas

4.1 The Initial Hosting Strategy will provide for the appointment by Council of Areas for 2 Cycles as follows:

a. Cycle 1 – One Area for each of the WIC taking place in 2024 and the WCH taking place in 2025; in each case also identifying a particular potential Host city.
b. Cycle 2 – One Area for each of the WIC taking place in 2026, and the WCH taking place in 2027, in each case also identifying a particular potential Host city.

4.2 Subject to the outcomes of the consultation and market-testing phase described in Rule 3.3.2 and the further work carried out thereafter, the four Areas targeted by Council for these two Cycles may or may not be four different Areas.

4.3 Following appointment of an Area for an event:

4.3.1 the Bidding process for the identified potential Host city will proceed according to the Bidding Rules;

4.3.2 other potential Host cities within that Area may be invited to put themselves forward in accordance with the Bidding Rules

4.3.3 Council may decide to appoint another Area in place of the one originally appointed, should Council determine, in its discretion, that intervening circumstances dictate taking such action.

5. Timelines

5.1 The Initial Hosting Strategy will be finalised by Council no later than the end of 2019 so far as Cycle 1 is concerned, and the Initial Hosting Strategy for Cycle 2 will be finalized by Council as soon as possible thereafter, but in any event no later than the middle of 2020.

5.2 Bearing in mind that the award for the 2025 WCH is due to be made during 2020:

5.2.1 Every effort will be made to prioritise identification of Areas and cities for the 2025 WCH, so as to provide such Areas and cities with as much time as possible to determine the appetite and competency for hosting, including the ability of national and local governments to provide support; and,

5.2.2 If necessary, Council will adjust the timeframes for awarding the 2025 WCH to ensure that sufficient time is available for such Areas and cities to enable preparation of viable and sustainable bids.

6. Other International Competitions

6.1 Although the Initial Hosting Strategy will be limited to WIC and WCH, Council will ensure that consideration is given to the Initial Hosting Strategy when selecting host cities for other international competitions in the Initial Period, including WU20 and IWR, so as to avoid undue concentration of events within one geographical area.

6.2 The process to be followed for the selection of the 2022 WIC, taking into account the application of the Bidding Rules except with respect to targeting of the Areas, is set out in https://www.worldathletics.org/hosting The steps, and dates, are set out at https://www.worldathletics.org/hosting

There are several appendices to the Application Form covering Government Guarantees, Public Authorisations, Venue Guarantee, Evaluation Methodology & Criteria, Budget, Security and Risk Assessment.

EVALUATION METHODOLOGY

In order to be considered by Council as a Candidate City, a Candidate City must achieve a minimum overall mark of 50% of the total available marks for its bid (total available marks being 500 i.e. the total of the sum of weighted criteria mark x weighting %).

The marks will be determined in accordance with developed evaluation methodology, but which must apply the formula set out below in accordance with the indicated percentage weightings. World Athletics will carry out the same evaluation process, applying the same evaluation methodology, regardless of the number of Candidate Cities submitting bids (i.e., even if only one Candidate City submits a bid).

Evaluation Formula

The following weighted criteria and formula will be used to determine the overall mark for each Candidate City:

- Quality of Application mark - (requirements, support of the Government and documents provided) - (30% weighting) = x

- Risk Assessment mark (30% weighting) = y

- Operational Assessment mark - (Evaluation Report (including the Evaluation Report Sub- criteria set out below) (40% weighting) = z

Formula:

\[(x \times 30) + (y \times 30) + (z \times 40) \div 100\]

= Overall Mark (up to a maximum total of 500)

Evaluation Criteria

The following is the evaluation methodology framework:
X – Quality of Application (30%)

The Application Form and supplementary documentation will be reviewed and the level of detail and commitment for each question will be assessed based on the following marks, each being assigned a number from 1 to 5:

<table>
<thead>
<tr>
<th>Comment</th>
<th>Explanation</th>
<th>Mark</th>
</tr>
</thead>
<tbody>
<tr>
<td>Unsatisfactory</td>
<td>A response that completely or almost completely fails to address</td>
<td>1</td>
</tr>
<tr>
<td>Marginal</td>
<td>A response that addresses a few elements of the evaluation</td>
<td>2</td>
</tr>
<tr>
<td>Satisfactory</td>
<td>A response that adequately addresses the elements of the evaluation criteria</td>
<td>3</td>
</tr>
<tr>
<td>Very Good</td>
<td>A response that addresses a majority of the elements of the evaluation criteria</td>
<td>4</td>
</tr>
<tr>
<td>Excellent</td>
<td>A response that addresses all elements of the evaluation criteria</td>
<td>5</td>
</tr>
</tbody>
</table>

The total sum of marks will be averaged to produce a final mark for this element.

Y - Risk Assessment (30%)

The methodology for the risk assessment will be based on two sets of questionnaires, one for the Candidate City to complete as part of its application, the other to be completed by the Office with the assistance of specialist risk consultants. The risk assessment questionnaires cover the following categories of risk:

- Geopolitical
- Political
- Reputational
- Financial
- Legal
- Governance
- Security
- Safety
- Medical
- Anti-Doping
- Operational
Measuring Risk Levels

Answers to the two risk assessment questionnaires are then processed and synthetized to populate the Risk Register, which includes a list of 30 Risk Events identified as relevant by World Athletics, organized under the 11 categories of risk listed above.

A Risk Event is an event that may adversely affect the expected outcome of the WAS Event, for example “natural disasters” or “reputational damage due to accusations of corruption”.

Using the answers from the two risk assessment questionnaires, each Risk Event is assigned a grade, from 1 to 5, in terms of likelihood and impact.

The likelihood that the Risk Event happens (from 1 – improbable, to 5, almost certain) is calculated based on the occurrence, frequency and proximity of the Risk Event.

The impact that the Risk Event would have on the 2023 World Athletics Championship (from 1 – undetectable, to 5, may result in disaster) is calculated based on the candidate’s vulnerability, potential damage and capacity to recover from the Risk Event.

Once each Risk Event has been measured against likelihood and impact, the overall risk level is calculated, on a level of 1 to 5 (1 for very low to 5 for very high). For example, a Risk Event with a 3 out of 5 likelihood (probable) and a 5 out of 5 impact (disaster) would have an overall risk level of 4: High Risk.

This process is applied to all 30 Risk Events listed in the Risk Register, which when averaged out, will give an overall total risk level from 1 to 5 representing the Risk Level for the event. As indicated in the table below, the lower the overall total risk level the higher the mark.

Several risk events are very probably or almost certain and their impact is either critical, serious or could result in a disaster.

Z – Operational Assessment (40%)

Against the operational requirements set out in Appendix 1 of the EOA and the sub-criteria referred to below, an Evaluation Report will be prepared that assigns marks from 1 to 5, assessing the readiness and capacity of the Candidate City to deliver what’s required in the context of overall benefit to the aims and objectives to World Athletics. World Athletics will rely on the site visits and/or regular reporting in order to form its assessment of readiness and capacity to deliver for each operational requirement.

The total sum of marks will be averaged to produce a final mark for this element. Evaluation Report Sub-Criteria

The following sub-criteria will be assessed and evaluated in compiling the Operational Assessment of the Evaluation Report:

- Estimated revenue for ticket sales
  - Reality of the market prices
  - Probability of achieving full stadium
  - Proper sales plan and promotion

- Budget feasibility
  - Country cost of living & inflation
  - Feasibility of Budget submitted using template
  - Government support & Covenants

- Sustainability, Legacy, Protection of Human Rights
  - A strategy for a sustainable event
  - Compliance with basic human rights according to international standard
  - Legacy projects from the city

- Infrastructure & Competitive Conditions
  - Competitive conditions for athletes
  - Ports of entry
  - Sufficient Hotel capacity
  - Stadium plans (in construction or existing)
- Training venues + Warm up
- Transportation network
- Suitable facility to host Congress
- Proposed LOC Structure

**Commercial**
- Potential Revenue from international media rights
- Potential Revenue from international and national sponsorship sales
- Potential for partner activation

The percentages listed in the pie chart below will be applied to the headings listed.

**Final Evaluation (Overall Mark)**

A final evaluation will be carried using the methodology stated to calculate a Candidate City’s overall mark. A Candidate City must receive an overall mark of 50% or more of the 500 total marks available, to be identified as a Candidate City and to be entitled to proceed to the next stage of the Bid process.

An outline of the Event Organisation Agreement (‘EOA’) is set out below. For all WAS Events, the Agreement shall be structured in the following way.
