All split times are unofficial. Where possible, the most accurate times are given. These are a mixture of transponder times and those taken from video analysis. Not shown are the 4x100m anchor times from 2015 (Bolt 8.65 etc), as these were triggered by a transponder and stopped by photo-finish. In 2014/2015, the first two legs of the 4x400m were effectively timed manually with a signal as each baton holder crossed the mid-point of the changeover zone in their lane. These have been expressed in tenths throughout, and verified by video where possible. In 2017, the 4x400m splits originally published were determined to be questionable for technical reasons.

UNIVERSAL (Mixed)**4 x 400 Metres Relay**

The fastest mark on record (3:11.89) cannot be ratified as a world record because no doping control was performed. The IAAF Council agreed that the inaugural world record will be the first performance to better the recognised world best performance at end of 2017, which was 3:13.20 USA from 2016. Therefore any mark of 3:13.20 or quicker in Yokohama will be a potential world record.
