## PROGRESSION OF OFFICIAL WORLD RECORDS

This section lists progressive world record performances as ratified by the IAAF or the Fédération Sportive Féminine Internationale (FSFI), which was absorbed by the IAAF in 1936. Though the IAAF was founded in 1912, its first list of world records contained marks which were set as early as 1870.

### AUTOMATIC TIMING

From 1975, the IAAF accepted separate, automatic electrically timed records for events up to and including 400m. From 1977 only automatic timing was considered for world records in these events. Automatic timing to hundredths was accepted for events up to and including 10,000m from 1981. Where known, unofficial automatic times are given – in a smaller typeface – next to the ratified “tenth” time. Ratified automatic times are always given in larger type.

### INDOOR WORLD RECORDS

From 1998, IAAF rule 260 was amended to state that world records (as opposed to indoor world records) can be set at a facility “with or without” a roof. So far only one event – the women’s pole vault – has been affected by this change, which was not applied retrospectively. Therefore world indoor records set in 2000 and 2001 by Stacy Dragila and Svetlana Feofanova are regarded as “absolute” and appear in these lists.

A similar rule change occurred in the late 1980s, when the 2.42 high jump of Carlo Thränhardt (FRG), made indoors, was accepted as equalling the existing world (outdoor) record. However after that version of the ruling was rescinded, this mark was subsequently deleted as a world record and is not included in this section.

### ROAD RECORDS

From January 1, 2004 the IAAF has recognised official world records at 10Km, 15Km, 20Km, Half Marathon, 25Km, 30Km, Marathon, 100Km, Road (Ekiden) Relay and also the 20Km and 50Km Walks. Progressions are also given here for best performances in the road running and walking events prior to their acceptance as official world record events.

### OMISSIONS

Except for road events, excluded from this section are unratified marks, performances which were originally accepted as world records then annulled, and indoor-only world records.

The data in this section is based on “Progression of World Best Performances and Official World Records”, edited on behalf of the IAAF originally by Richard Hymans and then Imre Mátraházi.

Records as at June 30, 2017

**Road events – world bests and world records**

These were accepted by the IAAF as world bests from January 1, 2003 and world records from January 1, 2004. Listed is the progression of world bests prior to official acceptance and superior unrated marks thereafter. Indented are unrated marks or those set on uncertified or aided courses which do not fulfill the criteria specified in IAAF Rule 260.21.b (separation between start and finish points should not be more than 50% of race distance) or 260.21.c (the decrease in elevation should not be greater than one in a thousand). Records ratified by the IAAF are shown in bold. + denotes marks set en route to longer distances

## BEST THREE BY YEAR 1965-2016

These listings show the top three performers in championship events, the Mile and the 3000m each year for the past 52 years. Up to 1977 for sprints, electrically and hand-timed marks have been mixed using the then accepted adjustments of 0.24 for 100/200m and 0.14 for 400m. So for example, Koné's 10.21 is ranked above 10.0 hand in 1967. Times for 120 yard, 440 yard and 880 yard races have been amended respectively by margins of 0.03, -0.26 and -0.6 in order to allow meaningful comparisons with their metric equivalents. Times which have been adjusted in this manner are asterisked. For the jumps and shot put, indoor marks are shown.

| YEAR              | FIRST            |     | SECOND |                    | THIRD |                 |                              |

# WORLD ALL-TIME LISTS

Included here are top 30 lists in all World Championship events and top 10s (where there are 10 significant performances) in the remaining events having IAAF World record status according to IAAF rule 261. Those competing with distinction under two or more names are denoted with the symbol “◇” and listed on page 10.

Where possible the country of origin of athletes representing the former Czechoslovakia, USSR or Yugoslavian states is given (Lists as at June 30, 2017)

| MARK  | WIND | NAME                       | COUNTRY | BORN | PLACE | VENUE                    | DATE      |
|---|------|----------------------------|---------|------|-------|--------------------------|-----------|

**Heptathlon**

From 2010, IAAF rule 260.27 (now 270.18) stated that – for record purposes – the average wind speed of the three affected events shall not exceed plus two metres per second. The ruling is not retrospective, but if it were then the affected marks are shown with the superscript "

**Road events – world bests and world records**

These were accepted by the IAAF as world bests from January 1, 2003 and world records from January 1, 2004. From November 1, 2011 the IAAF specified that “world records in road races for women [were] to be recognised in women only races”, though before that rule was enforced it was decided not to apply it in retrospect, so all existing world records (set in mixed races) remained standing. From November 1, 2013 it was agreed that the IAAF would separately ratify the best marks in single gender (i.e women only) road running races. Therefore two progressions are shown here where relevant. A mixed race record will be ratified even if it is inferior to the equivalent women only mark.

Listed is the progression of world bests prior to official acceptance and superior unratified marks thereafter. Indented are unratified marks or those set on uncertified or unaided courses which do not fulfill the criteria specified in IAAF Rule 260.21.b (separation between start and finish points should not be more than 50% of race distance) or 260.21.c (the decrease in elevation should not be greater than one in a thousand). Record ratified by the IAAF are shown in bold. + denotes marks set en route to longer distances.

**30 Kilometres****2 ratified world records** (plus two awaiting ratification)

*The 30Km point during the London Marathon had too great a drop for record purposes until a course change for the 2005 race when the overall loss of elevation was 11m and so within the threshold required*

## BEST THREE BY YEAR 1965-2016

See men's section (page 668) for general notes. In some of the newer disciplines, the start year is later due to the lack of meaningful performances as the event was under development.
